

15/08/2015

To: Members and Friends,

Dear All,

Re Annual Student Design and Technical Awards

Many thanks for your interest in these awards that the Institute has conducted each year with a view to encouraging the use of new technology and developments in our industry in innovative ways that stimulate the students' research and learning experiences.

Your Committee has agreed to change the frequency of delivery of these awards to every two years for the foreseeable future. The reasons for this change are complex but to maintain the prestige of winning the awards, given the restricted resources of administrative support, sponsorship and venue availability, this decision will enable a more practical planning and funding period. The committee is now preparing to deliver the next award program in 2016.

The sponsorship of prizes, judging and the help with the presentation event along with travel support for candidates to attend the presentation has been greatly appreciated by the Committee and we will soon be seeking support and sponsorship for the 2016 Awards.

If you can help us in any way please contact me.

Yours sincerely,

Ian Angliss
